

Camden T-Ball Rules

Remember; we are there for our children.

These rules are only to avoid confusion. This division is all about fun for the players and parents.

All players will be placed in the field on defense.

Adult coaches will be allowed in the outfield to guide the players on defense.

All players will be placed in the batting order and will bat each inning from the tee.

The batted ball must go past the batting circle or the batter will try again.

Even if there is an obvious out made on defense, the runner will remain on the base.

The batter will stop at first base after a hit. The base runners will advance one base after each hit until the last batter. All runners will then run to home plate.

A base coach/volunteer may be positioned at each base to help the runners on offense.

There is a one hour time limit for each game. The game may continue past one hour if there is no following game and everyone wants to continue.

PLEASE

Teach the basics: Throwing the ball overhand, base running skills, etc.

Try to teach the defensive players not to all run after the ball. You will find this will happen and might lead to injuries. They all want to get the ball and will even fight for it.

Rotate defensive players each inning. Also rotate the first batter each inning so each player has a turn to be the first batter and last batter.

No scorekeeping please.

Please warn the other coach if you have an exceptionally hard hitting batter come to the plate so he can move the infielders back to avoid an injury.

Instruct your players on defense to put his or her foot on the inside edge of the bag to prevent an injury.

HAVE FUN
